Report of Independent Registered Public Accounting Firm

To the Participants and
Administrator of the NCR Savings Plan

In our opinion, the accompanying Statements of Net Assets Available for Benefits and the related Statement of Changes in Net Assets Available for Benefits present fairly, in all material respects, the net assets available for benefits of the NCR Savings Plan (the "Plan") at December 31, 2010 and December 31, 2009, and the changes in net assets available for benefits for the year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**NCR Savings Plan
Notes to Financial Statements
Year Ended December 31, 2010**

1. Description of the Plan

General

The NCR Savings Plan (the "Plan") is a defined contribution plan established on May 1, 1985 by NCR Corporation ("NCR", "Employer", or the "Company") to give the Company's employees more control over, and participation in, the accumulation of capital for their retirement.

The Plan is designed to qualify as a profit-sharing plan with a qualified cash or deferred arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan covers substantially all U.S. employees of the Company (other than certain categories of part-time, temporary and intern employees) and its domestic subsidiaries, except for employees covered by a collective bargaining agreement.

The terms of the Plan described below are applicable to the majority of participants. A small portion of participants are in sub-plan groups due to the merger of legacy 401(k) plans into the Plan. While terms of participants in the sub-plan groups may vary slightly from the terms described below, the sub-plan group participants have substantially the same benefits and requirements of the other Plan participants.

Contributions and Funding

All eligible employees of the Company may defer a portion of their compensation by making tax-deferred contributions, as well as after-tax contributions, to the Plan. Participants may elect to contribute up to twenty percent of their eligible compensation. The maximum contribution percentage limits vary based upon the participant's base salary. Annual tax-deferred contributions per participant for the 2010 Plan year were limited to \$16,500.

NCR matches employee contributions by contributing 50 cents for each dollar contributed, up to the first 4% of eligible pay.

Effective June 1, 2002, the Plan was amended in accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) to allow employees aged 50 and older to elect to make an additional \$1,000 catch-up contribution during the 2002 plan year. Catch-up contribution amounts are not eligible for Employer matching contributions and increased by \$1,000 each year through 2006. After 2006, the catch-up contribution adjusted for inflation in \$500 increments. The maximum catch-up contribution for 2010 was \$5,500.

Participants direct their contributions, as well as the Company's matching contributions, among various investment strategies, as well as mutual funds, market index funds and the NCR Unitized Stock Fund, which invests primarily in NCR Common Stock. The investment strategies are comprised of a combination of mutual funds, separately managed accounts and common/collective trusts and are managed to derive returns subject to the associated risk tolerance. The Mutual Fund Window Investments consists of mutual funds (more than 300) which offer a broad range of investment objectives (ranging from conservative to very aggressive and domestic to international) in which participants elect to contribute.

Vesting and Forfeitures

Participants are immediately vested in their contributions plus actual earnings thereon. Company matching contributions vest in increments of one-fifth each year, over a five-year period beginning

**NCR Savings Plan
Notes to Financial Statements
Year Ended December 31, 2010**

on the participant's hire date. Participants are fully vested in their account balance after five years of service.

Participants become immediately and fully vested in their account (i) upon attainment of age 65, (ii) upon retirement, (iii) upon termination of employment due to a "reduction in force," (iv) in the event of death, or (v) in the event of total and permanent disability. Upon termination of employment, participants are entitled to full distribution of their contributions and all vested Company matching contributions; all non-vested Company matching contributions are forfeited. These forfeitures are reallocated and used to reduce future Company matching contributions. During 2010, forfeitures used to offset Company matching contributions were \$819,800 and as of December 31, 2010, \$2,129,417 in forfeitures were available to reduce future employer's contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, and an allocation of Company contributions and Plan earnings. Participants' accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Participants may withdraw any employee tax-deferred contributions during their employment in the case of a "hardship" (as defined by the Plan), and participants may withdraw after-tax employee contributions for any reason. The participants may not withdraw any Company matching contributions or any earnings on Company matching or employee contributions until they terminate employment with the Company.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50 percent of their account balance, whichever is less. The loans are collateralized by the balance in the participant's accounts and bear interest at a fixed rate based on the prime rate (as reported by the *Wall Street Journal*) in effect on the twentieth business day of the month prior to the month of the transaction. Generally, the term of the loan may be between one and five years. However, there are certain loans which were merged into the Plan and have a maximum term of ten years. Principal and interest is paid ratably through monthly payroll deductions. Upon default, participants are considered to have received a distribution and are subject to income taxes on the distribution amount. Loans at December 31, 2010 bear interest at rates ranging from 4.25% to 10.50% and are due at various dates through April 12, 2019. Loans are repaid through payroll deductions.

Withdrawals and Benefits

Participants may withdraw vested balances upon reaching the age of 59 and a half, or upon a participant's termination or disability. A participant's beneficiary shall be eligible to receive a distribution of the participant's account upon death of the participant. Hardship withdrawals, as defined by the Plan, may be made from all contributions at any time subject to approval by the Plan's Administrator. On termination of service, a participant receives a lump-sum amount equal to the value of the vested portion of their account if it is less than \$1,000. Termination participants with more than \$1,000 in vested benefits may elect to receive a lump-sum payment, quarterly installment payments, or leave the vested benefits within the plan until reaching the above noted retirement age, death and/or disability.

Termination of the Plan

The Company currently has no plans to terminate the Plan; however, the Company reserves the right to terminate the Plan at any time by action of the Board of Directors. No amendment or termination of the Plan may adversely affect a participant's accrued benefits on the date of the amendment or termination. No amendment may change the requirement that the assets of the

**NCR Savings Plan
Notes to Financial Statements
Year Ended December 31, 2010**

NCR Savings Plan Trust (the "Trust") must be used for the exclusive benefit of the participants, the former participants and the beneficiaries.

Upon termination of the Plan, the Company may, at its option, continue the Trust in existence or cause the Trust to be liquidated. If the Trust is liquidated, distributions will be made to the various participants, former participants and beneficiaries in a single lump sum promptly after liquidation is effective. If the Trust is not liquidated, distributions will be made to the various participants when they cease employment. For a complete description of the Plan, participants should refer to the Plan Document.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options in several investment securities and instruments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could continue to materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Investments in money market funds are short term investments comprised of various marketable instruments with maturities ranging from one to ninety days. The underlying securities in these funds are quoted in active markets. Investments in mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based on quoted prices in active markets. Investments in collective trusts include various index funds. The fair values of the Plan's interest in the index funds are based on the net asset values (NAVs) reported by the fund managers as of the financial statement dates and recent transaction prices. The index funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement. Under unusual circumstances redemptions may be suspended should the withdrawal cause a material adverse impact on other participating plans. Fair values for these investments within the index funds are based on quoted prices in active markets and securities valued using either observable inputs or quotations from inactive markets. Common Stock is valued at the closing price reported on the active market on which the security is traded.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on an accrual basis.

The Plan presents in its Statement of Changes in Net Assets Available for Benefits the net appreciation in fair value of investments, which consists of the realized gains and losses as well as the unrealized appreciation on those investments.

Notes Receivable from participants

Notes Receivable from participants are valued at their outstanding balances, plus accrued but unpaid interest.

Due to and from broker for securities purchased and sold

Items represented in other receivables and accounts payable are primarily pending security settlements.

[Table of Contents](#)

**NCR Savings Plan
Notes to Financial Statements
Year Ended December 31, 2010**

Plan Expenses

All initial and ongoing administrative costs of the Plan are paid by the Company, except for a \$50 participant loan application fee. Brokerage fees and commissions are included in the cost of investments when purchased and in determining the net proceeds on sales of investments. Investment management fees are paid from the respective assets of the investment option.

Payments to Withdrawing Participants

The Plan records payments to withdrawing participants at the time of disbursement.

Rollover Contributions

Participant rollover contributions from other defined contribution plans are included as participant contributions in the Statement of Changes in Net Assets Available for Benefits.

New Accounting Standards

In 2010, the FASB issued ASU No. 2010-06 which amends *Fair Value Measurements and Disclosures* – Overall (ASC Topic 820-10). This update requires a gross presentation of activities within the Level 3 rollforward and adds a new requirement to disclose transfers in and out of Level 1 and 2 measurements. The update further clarifies the existing disclosure requirements in ASC 820-10 regarding: i) the level of disaggregation of fair value measurements; and ii) the disclosures regarding inputs and valuation techniques. This update was effective for our fiscal year beginning January 1, 2010 except for the gross presentation of the Level 3 transfers in and transfer out information, was effective as of the 2009 plan year. The effect on the financial statements was not material. The principal impact from this update is expanded disclosures regarding our fair value measurements and is not expected to be material.

In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASC 962). This ASU requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for fiscal years ending after December 15, 2010, with early adoption permitted. The guidance should be applied retrospectively to all periods presented. The Plan adopted this guidance as of January 1, 2010, and reclassified participant loans from plan investments to a component of receivables for both periods presented in the Statements of Net Assets Available for Benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

In May 2011, the FASB issued ASU 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-4 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. Plan management is in the process of evaluating the impact of the adoption of this update on the Plan's financial statements.

3. Investments

The following presents investments that represent five percent or more of the Plan's net assets:

[Table of Contents](#)**NCR Savings Plan
Notes to Financial Statements
Year Ended December 31, 2010**

	December 31,	
	2010	2009
NTGI - QM Collective Daily Aggregate Bond Index Fund, 338,751 and 365,890 shares, respectively	\$ 145,665,311	\$ 147,589,805
Pyramis Select International Equity Fund 568,808 and 601,813 shares, respectively	\$ 71,186,305	\$ 68,657,155
NTGI - QM Collective Daily S & P 500 Equity Index Fund, 21,115 and 23,873 shares, respectively	\$ 78,084,435	\$ 76,717,356

The Plan's assets were also invested in Fidelity Mutual Fund Window investments, the fair value of which was \$598,920,336 and \$581,374,512 at December 31, 2010 and 2009, respectively. Within the Fidelity Mutual Fund Window, the aggregate fair values of the following investment funds represent five percent or more of the plan's net assets:

	December 31,	
	2010	2009
Fidelity Retirement Money Market Fund	\$57,994,555	\$64,609,270

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$126,930,159 as follows:

	Year Ended December 31, 2010
Mutual funds	\$ 56,095,911
Managed accounts common stock	19,296,041
Common collective trust funds	42,151,379
Employer common stock	9,386,828
	<u>\$ 126,930,159</u>

Fair Value Measurements

"Fair Value Measurements," ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Basis of Fair Value Measurement

[Table of Contents](#)

**NCR Savings Plan
Notes to Financial Statements
Year Ended December 31, 2010**

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**NCR Savings Plan
Notes to Financial Statements
Year Ended December 31, 2010**

The following table sets forth by level within the fair value hierarchy the Plan's investment assets and investment liabilities at fair value, as of December 31, 2010. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The underlying securities of money market funds are quoted in active markets using observable inputs, and as a result are classified as Level 2 investments within the fair value hierarchy table below. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based on quoted prices in active markets, and as such are classified as Level 1 investments within the fair value hierarchy table below. Fair values for collective trusts are based on quoted prices in active markets and securities valued using either observable inputs or quotations from inactive markets, and as a result the investment is classified as a Level 2 asset in the fair value hierarchy. Investments in common stock are valued at the closing price reported on the active market and are classified as Level 1 investments within the fair value hierarchy table below.

	Investment Assets at Fair Value as of December 31, 2010

(NAV). All the common collective trust funds have daily liquidity and are not subject to any redemption restrictions at the measurement date. The funds have different trading terms varying from one to three days.

4. Related Party Transactions

Related party transactions during the year consisted of loans made to participants and investments in NCR Corporation common stock along with investments in funds offered by Pyramis Global Advisors ("Pyramis"), a wholly owned subsidiary of Fidelity Management and Research Company, and by other affiliates of the Plan trustee, Fidelity Management Trust Company. The Plan's primary investment manager is Fidelity Investments ("Fidelity"). An affiliate of Fidelity serves as the record keeper for the Plan's participant data. Another affiliate of Fidelity serves as the trustee of the Plan. The cash receipts and cash disbursements from these investments constitute related party transactions. Related party cash receipts and cash disbursements of the Plan for the Fidelity managed funds totaled \$336,434,267 and \$333,886,447, respectively, for the year ended December 31, 2010. Purchases and sales of investments managed by Pyramis during the year ended December 31, 2010 totaled \$16,341,786 and \$27,653,552, respectively. The Company also provides certain administrative, accounting and recordkeeping services to the Plan for which it is not compensated. None of these related party transactions are prohibited transactions as defined under ERISA.

5. Tax Status

The Company received its latest favorable determination letter, dated January 9, 2004, from the Internal Revenue Service (IRS) as to the qualified status of the Plan under Section 401(a) of the Internal Revenue Code (the Code). The Plan has been amended since the determination was made. However the Plan Administrator and the Plan's tax counsel believe this Plan is currently designed and being operated in accordance with applicable sections of the Code and the related Trust is exempt from federal income taxes under Section 501(a) of the Code. Accordingly, income taxes are not provided for in the accompanying financial statements. Participant contributions, except for those contributions which participants elect to be tax-deferred under Section 401(k), are taxable to the participants in the year their contributions are made.

Participants are liable for federal income taxes relative to their Section 401(k) contributions, the Company matching contributions and the earnings of the Plan when the contributions are distributed to them.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

6. Plan Merger

Effective December 31, 2010, Kinetics Retirement Plan and Galvanon Retirement Plan, both NCR Company Retirement Plans, merged into the plan and ceased to exist. The net assets of the

Notes to Financial Statements
Year Ended December 31, 2010**

Kinetics Retirement Plan, with total investments of \$1,445,793, and Galvanon Retirement Plan, with total investments of \$239,544 transferred into the Plan on December 31, 2010.

7. Subsequent Events

The Plan Administrator has evaluated subsequent events since the date of these financial statements. There were no events or transactions discovered during this evaluation that require recognition or disclosure in the financial statements.
