Report of Independent Registered Public Accounting Firm

To the Participants and
Administrator of NCR Savings Plan:

In our opinion, the accompanying Statements of Net Assets Available for Benefits and the related Statement of Changes in Net Assets Available for Benefits present fairly, in all material respects, the net assets available for benefits of NCR Savings Plan (the "Plan") at December 31, 2012 and December 31, 2011, and the changes in net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011**

1. Description of the Plan

General

The NCR Savings Plan (the "Plan") is a defined contribution plan established on May 1, 1985 by NCR Corporation ("NCR", "Employer", or the "Company") to give the Company's employees more control over, and participation in, the accumulation of capital for their retirement.

The Plan is designed to qualify as a profit-sharing plan with a qualified cash or deferred arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan covers substantially all U.S. employees of the Company (other than certain categories of part-time, temporary and intern employees) and its domestic subsidiaries, except for employees of certain newly acquired subsidiaries and employees covered by a collective bargaining agreement.

The terms of the Plan described below are applicable to the majority of participants. Different terms are applicable for a small group of participants in the Plan due to the mergers of legacy 401(k) plans into the Plan. While terms applicable to certain participants may vary slightly from the terms described below, all participants have substantially the same benefits and requirements.

For a complete description of the Plan, participants should refer to the Plan Document or the Summary Plan Description.

Contributions and Funding

All eligible employees of the Company may defer a portion of their compensation by making tax-deferred contributions, as well as after-tax contributions, to the Plan. Participants may elect to contribute up to 50 percent of their eligible compensation. The maximum contribution percentage limits vary based upon the participant's compensation. Annual tax-deferred contributions per participant for the 2012 Plan year were limited to \$17,000.

The Company matches employee contributions by contributing 50 cents for each dollar of employee contributions, up to the first 4% of eligible compensation.

In accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"), the Plan allows employees aged 50 and older to elect to make an additional \$5,500 catch-up contribution during the 2012 Plan year.

Participants direct their contributions, as well as the Company's matching contributions, into various investment strategies, market index and Common Collective Trust funds, and the NCR Unitized Stock Fund which invests primarily in the Company's common stock. The investment strategies are comprised of a combination of mutual funds, separately managed accounts and common/collective trusts and are managed to derive returns subject to the associated risk tolerance.

In March 2012, the Plan's investment options changed to include several new options as well as to discontinue the Fidelity Mutual Fund Window and to cease future contributions into the NCR Unitized Stock Fund.

Vesting and Forfeitures

Participants are immediately vested in their contributions plus actual earnings thereon. Company matching contributions vest in increments of one-fifth each year, over a five-year period beginning on the participant's hire date. Participants are fully vested in their account balance after five years of service.

**NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011**

Participants become immediately and fully vested in their account (i) upon attainment of age 65, (ii) upon retirement, (iii) upon termination of employment due to a “reduction in force,” (iv) in the event of death, or (v) in the event of total and permanent disability. Upon termination of employment, participants are entitled to full distribution of their contributions and all vested Company matching contributions; all non-vested Company matching contributions are forfeited. These forfeitures are used to reduce future Company matching contributions or to pay reasonable administrative expenses of the Plan. During 2012, forfeitures used to offset Company matching contributions were \$909,762. As of December 31, 2012 and 2011 \$20,030 and \$7,223 in forfeitures, respectively, were available to reduce future Company matching contributions.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, and an allocation of Company contributions and Plan earnings. Plan earnings are allocated based on participants’ account balances and individual investments that make up those balances. Participants’ accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Participants may withdraw any employee tax-deferred contributions during their employment in the case of a “hardship” (as defined by the Plan), and participants may withdraw after-tax employee contributions for any reason. The participants may not withdraw any Company matching contributions or any earnings on Company matching or employee contributions until they terminate employment with the Company.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50 percent of their account balance, whichever is less. The loans are collateralized by the balance in the participant’s accounts and bear interest at a fixed rate based on the prime rate in effect on the last day of the preceding month plus 1%. Generally, the term of the loan may be between one and five years. However, there are certain loans which were merged into the Plan and have a maximum term of ten years. Principal and interest is paid ratably through monthly payroll deductions. Upon default, participants are considered to have received a distribution and are subject to income taxes on the distribution amount. Loans at December 31, 2012 bear interest at rates ranging from 4.25% to 10.50% and are due at various dates through January 18, 2017. Loans are repaid through payroll deductions.

Withdrawals and Benefits

Participants may withdraw vested balances upon reaching the age of 59 and 1/2, or upon a participant’s termination or disability. A participant’s beneficiary shall be eligible to receive a distribution of the participant’s account upon death of the participant. Hardship withdrawals, as defined by the Plan, may be made from employee contributions at any time subject to approval by the Plan’s Administrator. On termination of service, a participant receives a lump-sum amount equal to the value of the vested portion of their account if it is less than \$1,000. Terminated participants with more than \$1,000 in vested benefits may elect to receive a lump-sum payment, quarterly installment payments, or leave the vested benefits within the Plan until reaching age 70 and 1/2, death and/or disability.

Termination of the Plan

The Company currently has no plans to terminate the Plan; however, the Company reserves the right to terminate the Plan at any time by action of the Board of Directors. No amendment or termination of the Plan may adversely affect a participant’s accrued benefits on the date of the amendment or termination. Upon termination of the Plan, the Company is required to vest the accounts of unvested participants. No amendment may change the requirement that the assets of the NCR Savings Plan Trust (the “Trust”) be used for the exclusive benefit of the participants, the former participants and the beneficiaries or to pay reasonable administrative expenses of the Plan.

Upon termination of the Plan, the Company will cause the Trust to be liquidated. Distributions will be made to the various participants, former participants and beneficiaries in a single lump sum promptly after liquidation is effective.

**NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011**

Plan Amendment

In 2012, the Plan was amended to allow beneficiary designations of persons, trusts or organizations and allows these designations to be made electronically or in writing. Also, the amendment allows all compensation earned during a Plan year to be taken into account in applying the Section 401(a)(17) of the Code limit on Compensation to maximize Plan benefits. Additionally, the amendment continues a hardship suspension for any participant in a merging Plan.

The Plan was also amended to allow employees of the sponsors of the First Level Technology, LLC 401(k) Plan, Radiant Systems, Inc. 401(k) Plan, Texas Digital Systems, Inc 401(k) Plan, and InfoAmerica USA 401(k) Plan to participate in the Plan and recognizes prior service for purposes of vesting under the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options in several investment securities and instruments, including the NCR Unitized Stock Fund, which holds the Company's common stock. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could continue to materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Investments in money market funds are short term investments comprised of various marketable instruments with maturities averaging ninety days or less. Investments in mutual funds are valued at the net asset value ("NAV") of shares held by the Plan. Investments in common collective trust funds include various index funds. The fair values of the Plan's interest in the index funds are based on the net asset values ("NAVs") reported by the fund managers as of the financial statement dates. The index funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement. Under unusual circumstances redemptions may be suspended should the withdrawal cause a material adverse impact on other participating plans. Fair values for these investments within the index funds are based on quoted prices in active markets and securities valued using either observable inputs or quotations from inactive markets. Common stock is valued at the closing price reported on the active market on which the security is traded. All the common collective trust funds have daily liquidity and are not subject to any redemption restrictions at the measurement date. The funds have different trading terms varying from one to three days.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on an accrual basis.

The Plan presents in its Statement of Changes in Net Assets Available for Benefits the net appreciation/depreciation in fair value of investments, which consists of the realized gains and losses as well as the unrealized appreciation/depreciation on those investments.

Notes Receivable from Participants

Notes receivable from participants are valued at their outstanding balances, plus accrued but unpaid interest. There were no allowances for credit losses at December 31, 2012 or 2011.

**NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011**

Due to and from broker for securities purchased and sold

These items are pending security settlements.

Plan Expenses

Recordkeeping and other administrative fees are deducted from participant accounts or paid directly by the Company. Individual fees apply for specific transactions such as the establishment of a participant loan. Brokerage fees and commissions are included in the cost of investments when purchased and in determining the net proceeds on sales of investments. Investment management fees are paid from the respective assets of the investment option.

Payments to Withdrawing Participants

The Plan records payments to withdrawing participants at the time of disbursement.

Rollover Contributions

Participant rollover contributions totaling \$18,346,489 from other defined contribution plans are included as participant contributions in the Statement of Changes in Net Assets Available for Benefits.

Recent Accounting Standards

In May 2011, the FASB issued ASU 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-4 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The adoption of this update did not have a material impact on the Plan's financial statements.

In December 2011, the FASB issued ASU 2011-11, *Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities*. ASU 2011-11 requires entities to disclose both gross information and net information about both instruments and transactions eligible for offset in the Balance Sheet and instruments and transactions subject to an agreement similar to a master netting arrangement to enable users of their financial statements to understand the effects of offsetting and related arrangements on their financial position. In January 2013, the FASB issued ASU 2013-01 which limited the scope of this guidance to derivatives; repurchase type agreements and securities borrowing and lending transactions. The guidance from these updates was effective for our fiscal year beginning January 1, 2013. There are no assets or liabilities subject to offsetting. Accordingly, no additional disclosures are required upon adoption of these ASUs.

**NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011**

3. Investments

The following presents investments that represent five percent or more of the Plan's net assets:

	December 31,	
	2012	2011
NTGI - QM Collective Daily Aggregate Bond Index Fund, 387,994 and 310,920 shares, respectively	\$ 187,680,215	\$ 144,170,207
Pyramis Select International Equity Fund 462,302 and 524,926 shares, respectively	\$ 62,105,711	\$ 57,804,867
NTGI - QM Collective Daily S&P 500 Equity Index Fund, 24,161 and 18,857 shares, respectively	\$ 105,971,805	\$ 71,259,634
LifePath Index 2020 Non-Lendable Fund F 6,095,930 shares	\$ 99,729,417	*
LifePath Index 2025 Non-Lendable Fund F 6,328,995 shares	\$ 107,086,588	*
LifePath Index 2030 Non-Lendable Fund F 4,401,260 shares	\$ 76,405,878	*
LifePath Index 2035 Non-Lendable Fund F 3,213,169 shares	\$ 57,162,273	*

*New fund options added in 2012

The Plan's assets were also invested in Fidelity Mutual Fund Window investments, the fair value of which was \$0 and \$559,647,236 at December 31, 2012 and 2011, respectively. Within the Fidelity Mutual Fund Window, the fair value of the following investment fund represents five percent or more of the Plan's net assets:

	December 31,	
	2012	2011
Fidelity Retirement Money Market Fund	\$ —	\$ 50,939,273

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by 136,851,324 as follows:

	Year Ended December 31, 2012
Mutual funds	\$ 23,111,963
Common stock	15,107,299
Common collective trust funds	83,224,457
Employer common stock fund	15,407,605
	<u>\$ 136,851,324</u>

**NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011**

Fair Value Measurements

The Plan measures the fair value of Plan assets as the price that would be received to sell an asset in its principal market. In accordance with ASC 820, *Fair Value Measurements and Disclosures*, these measurements are classified and prioritized into a hierarchy framework by the inputs to valuation techniques used to perform the fair value calculation. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs, other than quoted prices, that are observable for the asset;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of the input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for these items, as well as the general classification of such items pursuant to the fair value hierarchy:

Money Market Funds — On a daily basis, the fund's net asset value ("NAV") is calculated using the amortized cost of the securities held in the fund and are classified within Level 2 in the fair value hierarchy tables below.

Mutual funds — Valued at the net asset value ("NAV") of shares held by the Plan at year end and are classified within Level 1 in the fair value hierarchy tables below. The mutual funds held are deemed to be actively traded.

Common stock and Employer common stock — Valued at the closing price reported on the active markets on which the securities are traded and is classified within Level 1 in the fair value hierarchy tables below.

Common collective trust funds — Valued at the NAV of shares held by the Plan. The collective trust fund information is reported at the lowest level to the Plan using the audited financial statements of each fund and, as described above, is included in Level 2 in the fair value hierarchy tables below.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011

The following tables set forth by level within the fair value hierarchy the Plan's investment assets and investment liabilities at fair value as of December 31, 2012 and 2011. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value assessment.

Investment Assets at Fair Value as of December 31, 2012

4. Related Party Transactions

Related party transactions during the year consisted of loans made to participants and investments in NCR Corporation common stock along with investments in funds offered by Pyramis Global Advisors (“Pyramis”), a wholly owned subsidiary of Fidelity Management and Research Company, and by other affiliates of the Plan trustee, Fidelity Management Trust Company. The Plan’s primary investment manager is Fidelity Investments (“Fidelity”). An affiliate of Fidelity serves as the record keeper for the Plan’s participant data. Another affiliate of Fidelity serves as the trustee of the Plan. The cash receipts and cash disbursements from these investments constitute related party transactions. Related party cash receipts and cash disbursements of the Plan for the Fidelity managed funds totaled \$28,925,175 and \$441,421,211, respectively, for the year ended December 31, 2012. Purchases and sales of investments managed by Pyramis during the year ended December 31, 2012 totaled \$81,879,626 and \$92,262,428, respectively. The Company also provides certain administrative, accounting and recordkeeping services to the Plan for which it is not compensated. None of these related party transactions are prohibited transactions as defined under ERISA.

**NCR Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011**

5. Tax Status

The Company received its latest favorable determination letter, dated January 9, 2004, from the Internal Revenue Service (“IRS”) as to the qualified status of the Plan under Section 401(a) of the Internal Revenue Code (the “Code”). The Plan has been amended since the determination was made and an application for a new determination letter was filed on January 31, 2011. To date, a new letter of determination has not yet been received. However, the Plan Administrator and the Plan’s tax counsel believe this Plan is currently designed and being operated in accordance with applicable sections of the Code and the related Trust is exempt from federal income taxes under Section 501(a) of the Code. Accordingly, income taxes are not provided for in the accompanying financial statements. Participant contributions, except for those contributions which participants elect to be tax-deferred under Section 401(k), are taxable to the participants in the year their contributions are made.

Participants are liable for federal income taxes relative to their Section 401(k) contributions, the Company matching contributions and the earnings of the Plan when the contributions are distributed to them.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

6. Plan Mergers

Effective March 2012, the First Level Technology, LLC 401(k) Plan merged into the Plan. The total amount of assets transferred as of the merger date was \$2,437,082. Effective May 2012, the Radiant Systems, Inc. 401(k) Plan merged into the Plan, upon which \$50,148,334 in assets were transferred to the Plan. Simultaneously, the Texas Digital Systems, Inc 401(k) Plan merged into the Plan, and as a result, assets in the amount of \$2,283,882 were also transferred to the Plan on the merger date. Effective December 2012, the InfoAmerica/USA Inc. 401(k) Plan merged into the Plan. The total amount of assets transferred as of the merger date was \$112,900. Additionally, participant loans transferred into the Plan during the year as a result of these mergers totaled \$1,111,982. The employer contributions subject to vesting schedules continued to vest in accordance with the terms in effect prior to the mergers.

7. Subsequent Events

The Company has evaluated subsequent events through the date that the NCR Savings Plan Financial Statements were issued. Except as described below, no matters were identified that require adjustment or additional disclosure.

In March 2012, contributions to the NCR Unitized Stock Fund were discontinued. Participants were provided an election period, during which participants were permitted to elect to reallocate any balance in the NCR Unitized Stock Fund into the remaining investment options in the Plan. Subsequently, on March 14, 2013, the NCR Unitized Stock Fund was liquidated. If no elections were made by the participant within the election period, the proceeds from the liquidation were reinvested into the default investment options within the Plan.
