WELCOME AND AGENDA

INVESTOR DAY
NOVEMBER 11, 2013
NEW YORK STOCK EXCHANGE

Tracy Krumme
VP, Investor Relations

Note to Investors

Comments made during this meeting and in these materials may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements use words such as "seek," "potential," "expect," "strive," "continue," "continuously," "accelerate," "anticipate," "outlook," "intend," "plan," "target," "believe," "estimate," "forecast," "pursue" and other similar expressions or future or conditional verbs such as "will," "should," "would" and "could." They include statements as to NCR's anticipated or expected results, growth and financial performance, including its outlook for the period from 2013 to 2016; projections of revenue, profit growth, operating growth and other financial items, including its expected NPOI, revenue and EPS growth, its projected free cash flow and adjusted free cash flow generation, its projected effective tax rate and cash tax rate, its anticipated software and recurring revenue growth, and its expectations regarding margin expansion, in each case for the period from 2013 through 2016 and beyond; continuous improvement and cost savings initiatives and the expected benefits of those initiatives; future business segment performance; expected benefits from the acquisition of Retalix Ltd., including with respect to cost synergy targets and the acquisition's effect on the strength of its solutions portfolio; revenue and solution diversification and differentiation and the anticipated benefits thereof; strategies and intentions regarding its pension plans and the effects thereof, including with respect to "Phase III" of its pension strategy; expectations and beliefs regarding business, consumer and market trends and the growth of total, available and addressable markets; discussion of other strategic initiatives and related actions; and beliefs, expectations, intentions and strategies, among other things.

Forward-looking statements are based on management's current beliefs, expectations and assumptions, and involve a number of known and unknown risks and uncertainties, many of which are out of NCR's control. These forward-looking statements are not guarantees of future performance, and there are a number of factors, risks and uncertainties, including those detailed from time to time in NCR's SEC reports, including those listed in Item 1a "Risk Factors" of its Annual Report on Form 10-K, that could cause actual outcomes and results to differ materially from the results contemplated by such forward-looking statements. These materials are dated November 11, 2013, and NCR does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

While NCR reports its results in accordance with generally accepted accounting principles (GAAP) in the United States, comments made during this conference call and the related presentation materials will include "non-GAAP" measures, including non-pension operating income (or NPOI), free cash flow (FCF), adjusted free cash flow, non-GAAP earnings per share, constant currency and Adjusted EBITDA. An explanation of these non-GAAP measures and a reconciliation of these non-GAAP measures to comparable GAAP measures are included in the portion of these presentation materials entitled "Supplementary Non-GAAP Materials" and are available on the Investor Relations page of NCR's website at www.ncr.com. Descriptions of many of these non-GAAP measures are also included in NCR's SEC reports.

These presentation materials and the associated remarks made during this meeting are integrally related and are intended to be presented and understood together.

SVP, CFO and Chief
Accounting Officer

Q&A

Our Objectives for Today

- Provide a deeper understanding of our strategy, markets, solutions and financial outcomes
- Educate you about NCR's expanding global market opportunities
- Communicate our 2014 – 2016 business plan model, free cash flow and capital structure goals
- Answer key questions on your mind

Footnotes

- (1) This is a non-GAAP measure. An explanation of non-GAAP measures and a reconciliation of GAAP to non-GAAP measures are included in the non-GAAP supplementary materials and/or on the investor relations page of NCR's website.
- (2) Software includes software, software as a service (SaaS) and software maintenance, but excludes professional services associated with software delivery.
- (3) Recurring revenue is the sum of SaaS, hardware maintenance and software maintenance revenue.

Managing for Margin

- Increasing productivity
- Reducing our cost structure
- Simplifying our processes
- Giving time back to sales
- Improving the customer experience

\$200 million to \$300 million expected savings for the period 2014-2016 (50% reinvested)

Key Initiatives:

- Cost reduction and value engineering
- Product lifecycle management
- Solution complexity reduction program
- Quote to Cash and Source to Pay process improvements
- Hardware/Software Fulfillment
- Design for serviceability, manufacturability and cost

Revolving Credit (\$850 mm)	-	0.0%	Jul-18	1.75% ¹
Total Senior Secured Debt	\$ 1,115	12.6%		
Senior Notes Due 2021	500	5.7%	Feb-21	4.625%
Senior Notes Due 2022	600	6.8%	Jul-22	5.00%
Other Debt	12	0.1%	various	various
Total Debt	\$ 2,227	25.3%		
Equity Market Capitalization	6,589	74.7%	-	-
Total NCR Capitalization	\$ 8,816	100.0%		

1. NCR Credit Facility interest rate is subject to a leverage-based pricing grid. Interest rate shown is as of the end of Q3 2013. As of September 30, 2013, approximately half of the Term Loan balance is subject to a floating-to-fixed interest rate swap which effectively converts the variable rate interest payments due on the Term Loan to a fixed rate of approximately 3%.

Effective Tax Rate and Cash Tax Rate Analysis

Financial Policy

- Maintain strong liquidity
 - Currently ~\$700 million of unused revolver and \$460 million of cash
 - Extended revolver term to 5 years in July 2013
- Support NCR's growth strategy with disciplined approach to M&A and capital investments
 - Increasing investments in SaaS technology
 - Pursue opportunistic acquisitions in our lines of business and adjacencies
- Use strong, growing NPOI to reduce leverage over time
- Balanced capital structure approach
 - No expected dividend initiatives; will consider share buybacks as necessary to offset dilution
 - Maintain capital structure flexibility and maintain leverage at 2.0x to 3.0x EBITDA
- Manage down NCR legacy financial risks over the medium term

<h2>Key Takeaways</h2>	<p>Growth and significant profitability improvement in 2013</p>	<p>Strong revenue growth expected over next three years, especially in software and services</p>	<p>Cost reduction initiatives provide additional support to NPOI growth outlook</p>
<p>Free Cash Flow generation expected to improve driven by higher margin revenue</p>	<p>Execute on Phase III of pension strategy</p>	<p>Continue to manage the balance sheet for flexibility and liquidity, continued focus on working capital</p>	<p>Cash generated to be used for organic growth and strategic opportunities</p>

QUESTIONS?

Footnotes

- 1) This is a non-GAAP measure. An explanation of non-GAAP measures and the reconciliation of GAAP to non-GAAP measures are included in the supplementary non-GAAP materials in this presentation and/or on the investor relations page of NCR's website.
- 2) Software includes software, software as a service (SaaS) and software maintenance but excludes professional services associated with software delivery.
- 3) Recurring revenue is the sum of SaaS, hardware maintenance and software maintenance revenue.

SUPPLEMENTARY NON-GAAP MATERIALS

Non-GAAP Measures

While NCR reports its results in accordance with generally accepted accounting principles in the United States, or GAAP, certain materials presented during this event will include non-GAAP measures in an effort to provide additional useful information regarding NCR's financial results. NCR's management evaluates the company's results excluding certain items, such as pension expense, to assess the financial performance of the company and believes this information is useful for investors because it provides a more complete understanding of NCR's underlying operational performance, as well as consistency and comparability with NCR's past reports of financial results. In addition, management uses certain of these measures to manage and determine effectiveness of its business managers and as a basis for incentive compensation. NCR management's calculation of these non-GAAP measures may differ from similarly-titled measures reported by other companies and cannot, therefore, be compared with similarly-titled measures of other companies. These non-GAAP measures should not be considered as substitutes for or superior to results determined in accordance with GAAP. The reconciliations of non-GAAP measures to comparable GAAP measures and other related information on the following slides are also available on the Investor Relations page of NCR's website at www.ncr.com.

Non-GAAP Measures

NPOI and Non-GAAP EPS. The non-GAAP income from operations (i.e., non-pension operating income, or NPOI) and non-GAAP earnings per share included in these materials exclude the impact of pension expense and certain special items. Due to the significant change in its pension expense from year to year and the non-operational nature of pension expense and these special items, including amortization of acquisition related intangibles, NCR's management uses non-pension operating income and non-GAAP earnings per share to evaluate year-over-year operating performance. NCR may, in addition, segregate special items from its GAAP results from time to time to reflect the ongoing earnings per share performance of the company. NCR also uses non-pension operating income and non-GAAP earnings per share to manage and determine the effectiveness of its business managers and as a basis for incentive compensation. NCR determines non-pension operating income based on its GAAP income (loss) from operations excluding pension expense and special items.

Free Cash Flow and Adjusted Free Cash Flow. Free cash flow (or FCF) and adjusted free cash flow do not have uniform definitions under GAAP. NCR defines free cash flow as net cash provided by/used in operating activities and cash flow provided by/used in discontinued operations less capital expenditures for property, plant and equipment; additions to capitalized software; plus discretionary contributions to employee benefit plans. NCR defines adjusted free cash flow as free cash flow plus required pension contributions, cash provided by/used in discontinued operations, and cash flow impact of special items. NCR's management uses free cash flow and adjusted free cash flow to assess the financial performance of the company and believes they are useful for investors because they relate the operating cash flow of the company to the capital that is spent to continue and improve business operations. In particular, free cash flow and adjusted free cash flow indicate the amount of cash generated after capital expenditures which can be used for, among other things, investment in the company's existing businesses, strategic acquisitions, strengthening the company's balance sheet, repurchase of company stock and repayment of the company's debt obligations. Free cash flow and adjusted free cash flow do not represent the residual cash flow available for discretionary expenditures since there may be other nondiscretionary expenditures that are not deducted from the measure.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA). NCR believes Adjusted EBITDA provides useful information to investors because it is an indicator of the strength and performance of the company's ongoing business operations, including its ability to fund discretionary spending such as capital expenditures, strategic acquisitions and other investments. NCR determines Adjusted EBITDA for a given period based on its GAAP income (loss) from continuing operations plus interest expense, net; plus income tax expense (benefit); plus depreciation and amortization; plus other income (expense); plus pension expense (benefit); and plus special items included in the definition of NPOI. NCR believes its ratio of net debt to Adjusted EBITDA provides useful information to its investors because it is an indicator of the Company's ability to meet its future financial obligations.

Constant Currency. NCR's period-over-period revenue growth on a constant currency basis excludes the effects of foreign currency translation. Due to the variability of foreign exchange rates from period to period, NCR's management uses revenue on a constant currency basis to evaluate period-over-period operating performance. Revenue growth on a constant currency basis is calculated by translating prior period revenue at current period monthly average exchange rates.
